

# Modified Old English Capital Letter basic strokes

This top stroke starts and ends with a hairline and the stroke has a slight curve. This stroke is used on letters A, B, E, F, H, I, J, K, L, and M. The pen nib is at a 45° angle.

The last step is to put in the fine hairlines. This can be done with a stiff pointed pen nib or a micron pen. The color of the hairline will be the same color as the letter. Run a pen or micron along the side of a wooden ruler with a metal strip or a metal ruler to achieve a straight edge.
